

# Business briefing document

In their business briefing, Apollonia Dental Practice has illustrated the requirements for this stage of the application development, the business needs, and the current organisational charts.

Apollonia Dental Practice requires an employee management application, capable of handling records of the clinic departments and the medical staff. As of now the fundamental requirement is to be able to keep a list of members of the medical staff by departments.

## **Apollonia Dental Practice currently has 10 employees:**

Lisa Harris  
Alfred Christensen  
John Dudley  
Danny Perez  
Sarah Alvarez  
Constance Smith  
Travis Combs  
Francisco Willard  
Janet Doe  
Leslie Roche

## **Apollonia Dental Practice currently has 5 departments:**

General Dentistry  
Pediatric Dentistry  
Restorative Dentistry  
Surgery  
Orthodontics

## **The company has also provided you with the list of staff by department:**

- General Dentistry
  - Alfred Christensen
  - John Dudley
  - Janet Doe
- Pediatric Dentistry
  - Francisco Willard
  - Sarah Alvarez
- Restorative Dentistry
  - Lisa Harris
  - Danny Perez
- Surgery
  - Constance Smith
- Orthodontics
  - Leslie Roche
  - Lisa Harris

The requirements at this stage are to be able to create employee records with Name, Surname, and Department, as well as a list of Departments available at the clinic.

In the future the company would like to have a general employee and customer relationship management application.

In the future they would want to keep records of trainings and specializations for each member of the medical staff, current projects, patients, patients assigned to each member of the medical staff, revenue per patient, revenue per member of the medical staff.

Your project will be an initial step towards later building a full employee and customer relationship management application.
